

IN ANOTHER COLLABORATION WITH DUSTIN

- a new pop-up workspace has been set up at Clarion Live in Malmö

CLARION HOTELL MALMÖ LIVE 2021-05-31

Since September 2020, two pop-up workspaces have now been decorated at the Clarion hotel chain in collaboration with IT specialist Dustin, Götesson's and David Design. The first Dustin Business Suite was created at Hotel Clarion Sign in Stockholm and now it's time for Hotel Clarion Live in Malmö to get a designed and stylish workspace.

These workspaces have been created for hotel guests, people who do not have the opportunity to work from home and temporary visitors in the various cities who quickly need access to a workspace with an inspiring environment. This is the second of a series of pop-up workspaces that will be created in the future at the Clarion hotel chain in different cities.

On these pop-up workspaces, Götesson's and David's design has placed great emphasis on creating an ergonomic, comfortable and stylish interior.

Furnishings from Götessons

At Clarion Live, there are 8 equipped workplaces, including *ScreenIT A30* table screens and *The Lightning*. The sound-absorbing house *Half a Hut* with associated seating furniture is also on the surface and works just as well as a room divider and a workplace. Some *iQseat* chairs as well as several *Office Ballz* to sit on are also placed where it is possible to turn the backrest into a table. There are also a number of acoustic products such as *Sound Off Cloud*, *Off the Grid* with *Tiles EcoSund* and *Plant Divider* with a lot of plants from Götessons

Furnishings from David design

In addition to the equipped workplaces, there are bar places with the bar stools *Lean4 bar* where you can also have a little shorter meetings at. Products that David design has contributed with are the classic tables *Arena*, *Opi* and *To go* as well as the chair classic *Skift Plus* by Lars Hofsjö and *Portia Lounge* designed by Superlab.

Visit gotessons.se and daviddesign.se to take part in the product range.

No booking

Dustin Business Suite is now available and does not need to be booked to use.

About Gotessons

Gotessons was founded 1984 and have since then developed and been able to offer a complete range of work environment solutions, focusing on office spaces. With Europe as their main market, they secure ergonomic, functional and well design complete solutions for the customer. In 2019, the company was acquired by the investment company Accent Equity as majority owners. Accent Equity will support the board and continue supporting the partowners in their journey with a high growth, as well as accelerating the company's international expansion. Gotessons Group also includes affiliate company A.M. Acoustics since 2015 and David design AB since 2020.
